

## DATA SHEET – PIASTRA PSD MORBIDA TRASPARENTE

### FEATURES

- Produced with a technical material for molding of high-quality aesthetic products: Ethylene vinyl acetate (EVA)
- Its softness and transparency ensure that the plate does not damage the finish or the exposed surface on precast elements

### USAGE

- Storage of lightweight precast elements
- Transportation of precast elements, to protect the corners on which the safety strap is stretched, for a safe transport without the risk of damaging the element

### ADVANTAGES

- The softness of EVA allows the secure locking of straps without them slipping, preventing the possible tipping of the precast element and its consequent damage

### DIMENSIONS AND PACKAGING TABLE

| Code   | Description                  | Size<br>(LxWxH mm) | Pc /<br>Package | Pc /<br>Pallet | Pallet weight<br>(kg) |
|--------|------------------------------|--------------------|-----------------|----------------|-----------------------|
| PPSDBM | PIASTRA PSD SOFT TRANSPARENT | 150 x 60 x 11      | 200,00          | 2.000,00       | 720,00                |
